

## Bob time problems!

1. Bob gets up at 6 o'clock and arrives at the launch-pad at 8 o'clock. How long does it take Bob to get to work after he wakes up?

2. If Bob must leave for the moon by quarter to nine, otherwise he wouldn't make it to the moon by nine o'clock. How long does it take Bob to get to the Moon?

3. If lunch is at 12.30 and then Bob entertains the tourists for 2 hours, what time does Bob finish entertaining?

4. The Moon opens for visitors at 9.00 am and all visitors must leave 4.30 pm, how long is the Moon open for visitors?

5. Bob finishes work half an hour after the visitors all leave, what time is this?

6. Bob wakes up at 6.00am and Bob goes to sleep at 9.00pm, how long has Bob been up for?

7. If Bob starts work at 8.00am and finishes at 5.00pm, how many hours does he work in a day and a week?

8. Bob gets to the launch pad at 8.00am and finishes getting into his space suit at 8.45am, how many minutes does Bob take to get dressed?
