

Woollahra Farm Excursion

Last Tuesday Red class went by bus to Woollahra Farm. We were all very excited. The golden sun was shining brightly as we headed to the farm along the long winding road.

As soon as we arrived we washed our hands so that we could touch the animals without giving them germs. Although I was looking forward to getting close to the animals I was a bit nervous of seeing the cows.

First we went to the dairy shed to watch the large cows being milked by a machine. Despite feeling a bit nervous it was really interesting to watch.

Afterwards we fed a cute baby goat with the bottle. I discovered that they can be quite strong when they want to be.

Before long it was time to see the chickens. We held the fluffy yellow chicks in our hands. The feet felt very tickly. It was a very busy day. We fed ponies, goats, donkeys, sheep and deer.

At the end of the day we went back to school. I liked feeding the ponies the best. I discovered that working on a farm is a lot hard work!
