

Addition and Subtraction Unit 1

Problem solving and reasoning: Questions

Write the pairs of possible missing numbers:

20		
11	*	?

How many different ways are there of writing numbers in the two boxes in this sentence?

$$\square + \square = 10$$

What if the two boxes = 9? Or = 8?

You have 21 cards: 0 to 20.

Put them together in pairs of numbers making 20. Write these. Write the pair you cannot create

Write four number sentences to relate these 3 numbers: 13, 19 and 6.

Write all possible different ways of making 14 by adding two numbers.

Explain your system for finding them all.

These questions should be provided for children to do once the unit has been completed. They assess the children's mastery of the skills and concepts in this unit.
