Reading (20 minutes)

Mary Anning text. Lesson 2 'To answer retrieval questions':

<https://classroom.thenational.academy/lessons/to-answer-retrieval-questions-6gv32c> I you have not completed lesson 1 please do that today instead as the children need to be confident with the text before moving on.

Computing (30 minutes)

Last lesson, those of you that had access to PowerPoint used the animation tool to make objects move.

This lesson, your task is to create a short set of instructions to explain how to animate an object in PowerPoint. # You could also explore the transition function too and included that as well.

In our folder, you can find some very boring instructions! You could start with these and make them much more exciting to read! This could be done by adding drawing to show what it should look like.

We love seeing all your hard work. If you have any other work you would like to share, please send it via email to:

We may not always reply but we do love seeing it!
