Assembly - <https://www.brixington.devon.sch.uk/assemblies-and-whole-school-challenges/>

Maths lesson (60 minutes)

Please follow today's loom link for our maths lesson. We are looking at using the distributing strategy with confidence today. We will be looking at both 2-digit and 3-digit numbers as well as some challenges near the end. Enjoy your last virtual maths lesson. We are very much looking forward to having you all back next week and working on our maths together again 😊

English (60 minutes)

Follow the success criteria to check you have written a successful set of instructions. Edit your work, where you are missing parts of the criteria or have fewer than three examples of it in your writing. Finally, with your dinosaurs, use your imagination to act out the instructions to see if they would work!

Spelling:

Practise your four key spellings above. You could write them into different sentences. You could draw a shape and see how many times you can fit them in. Can you beat your record?

PSHE (40 minutes)

Please follow today's short loom link for the lesson on setting myself a challenge:

<https://www.loom.com/share/539b1ae1b1dd41cc9fd87345a8948bd3>. Then find the fitness challenge worksheet to set yourself a goal by the end of this unit. What can you do now? What do you want to be able to do by the end?

Reading (20 minutes)

Spend at least 10 minutes free reading today. You can read anything you like. You could share a book with someone. You could set yourself a target to read to a certain page.

At the end of your day, listen to part of a story read by a member of staff using the assembly and challenges link above.

R.E

Please follow the Power Point for today's R.E. lesson. Within the lesson there are some useful links that Mrs Clarke would like you to watch. You can follow the links using the ones below:
