All About Beaches

What Is a Beach?

Beaches are always found next to a stretch of water, such as the sea or a lake. Usually, they are composed of rock which could be in the form of sand, pebbles, gravel or shingle.

At some beaches, there is a high and low tide. This means that at certain points of the day, the sea comes further up the beach. On some beaches, at times, the sea completely covers it.

Beach Activities

Beaches are a popular choice for both a holiday or a day trip. As you can spend a full day there, many people choose to take a picnic. Other activities include building sandcastles of all shapes and sizes as well as playing a variety of ball games. People also choose to paddle at the seashore although it can be rather chilly. Those who are feeling brave may opt to go swimming! At some beaches, you can also find rock pools. There are lots of treasures to be found, including starfish and crabs.

Important Information

Make sure you always check high and low tide times before you visit a beach.
