Fluent in Five - Year 5

Week 1 - Day 4

Answer Sheet

Remember, (M) is written next to those questions you should have tried to solve mentally first. (W) means a written method is usually more efficient for this question.

1. $\frac{1}{3}$ of 42 = **14** (M)

2. $91 \div 7 = 13$ (W)

3. $70 \times 6 = 420$ (M)

4. $26 \times 7 = 182$ (W)
