

Year 4 News

Friday 11th February 2022

In year 4 this week...

This week we have been writing sentences with more than one clause to help describe story settings, explaining how to multiply and divide by 10, thinking about pitch and volume in our science lessons, working in the style of Matisse when painting, writing code for our own games in computing, making inferences when reading and much, much more!

Thank you for your continued support.
Mrs Walker, Mrs Skinner, Mrs Keilty
and Mrs Hamilton

HOME LEARNING

Reading – Children should aim to read at home for 15-20mins daily. This may be reading to an adult or independent reading. Please record reading in the green reading record.

Spellings – Each week, words chosen from the year 3/4 spelling list will be given as words to learn. This week's words are: experiment and group

Maths – Activities will be set on MyMaths each week to follow up in-class learning or revisit key skills. Children should spend no more than 30mins per week on these tasks. This week, there are three tasks to complete linked to multiplying and dividing by 10.

Times tables – Times tables are key to so many areas of maths so we would like children to try to spend a little bit of time practising regularly - every day if possible! This could be 5mins on TTrackstars, quickfire questions, games such as tables bingo, or any other way you can think of to practise! Children can log on at <https://play.ttrackstars.com>

Times Table of the week this week is: 3x

Optional Extras – Sometimes children are keen to do something extra linked to their learning. We will give ideas but there is no requirement to complete these tasks.

Our Geography theme this half term focuses on France. If children would like to do an optional extra this half term, they could choose another European country to research. We have been learning about human and physical features of places. Can you find some examples of these for the country you have chosen? Or choose another aspect of life in France to research, e.g. food, fashion, sports

SUBJECT SPECIFIC VOCABULARY

Each week we will share vocabulary linked to the learning we have planned for the coming week. It is really helpful for the children to become familiar with some of these words before they meet them in their lessons. There is no need to produce any work linked to these words, a conversation at home about the words would be brilliant!

This week's words are:

Homophone noun pronoun

multiple hundred thousand

The challenge continues!

The First Federation inter-school times tables competition runs until Friday 18th Feb. All games played count to our class and school totals. Keep playing!
