

## Year Five

### Summer Term Guide

#### *Some of the things I will be learning this term:*

*Maths - We have begun this term learning about factors, multiples and prime numbers. After this, we have a huge learning block all about fractions before moving on to converting units of measure and angles.*

*English - we will be studying a range of genres including poetry, report writing, discussions and recount. We will be focusing on a range of reading techniques too.*

*Science - we will be continuing to advance our 'working scientifically' skills through studying the Earth in Space and then Living Things in their Habitats in the second half of the summer term.*

*Geography - we are learning about global knowledge, completing several country studies.*

*History - understanding Ancient Greece - the birthplace of gods and democracy!*

*Art - this term we will be building sculptures with wire and Modroc - prepare to get your hands messy.*

*DT - breakfast brunch time! From carrying out surveys to cooking our own brunch, the children will be putting together some crucial elements of food technology in their learning.*

*PE - tennis, athletics, cricket and rounders all feature in our PE lessons this term.*

*Music - the children will be completing two more units in music with a focus on understanding simple notation.*

*Computing - the first half of the summer term is all about computer-aided design (CAD), constructing a 3D design online. In the second half of summer we are blogging and vlogging.*

*RE - we will be considering the following question: 'What would Jesus do?' and in the second half of term we are studying how ideas of Christians and non-religious people prioritise what matters most in their lives.*

*PSHE - our learning for this term will be focusing on 'Relationships' and 'Changing Me'.*

#### *You could help me with my learning by:*

*Reading with me at home as much as you can, checking I have a reading book and my reading record and practising my times tables with me. Remind me that I have homework to complete and make sure I have remembered something each day from school. I need my PE kit in school every day too!*

#### *We are really excited about:*

- *Getting practical in art and DT.*
- *Making and tasting our breakfast brunches.*
- *Playing lots of summer term games in PE on the field.*
- *Using computers to do something a bit different.*

*Please go to my class page to see this learning in action.  
Keep checking our school Facebook page to see what the rest of the school are up to.*
