## Green fingers

We have begun our new unit in science: investigating plants. In class, we are currently growing some seeds to see if all plants require the same things to grow into a healthy plant.

We continue our investigations into the mysterious break ins! Look out for our reposts in the coming weeks as we fill you in with all the details.

Year 3 team

## HOME LEARNING

**Reading** – Please continue to **record** the reading in the green reading record. Children should aim to read at home for 15-20mins daily with an adult. As a reminder, we do not mind if the children are recording in their books themselves, but we need to ensure they are reading every day.

**Maths** – Please complete the work on My Maths. How quickly can you answer questions from the four times table? We will be moving onto the eight times tables very soon.

**Times tables** – Ask someone to quiz you on your four times tables. You could also continue to practice on Times Tables Rockstarts. Don't forget, you can challenge your teacher or Mr Dyer!

**Optional Extras** – How many different plants can you find?

You could look in your garden, at the park or as you walk to and from school. You could draw or paint some of them, or find out what they are called as well as a fun fact about them.

It would be lovely to create a display with some wonderful pictures so if you have a go, please bring them in to school!

Photos can be taken and sent in via DOJO or class email:
