A) $35\% > \frac{2}{10}$

B) $75\% < 0.6$

VF

3a. These values are in order from smallest to largest. Which percentage completes the sequence?

0.05 0.45 $\frac{5}{10}$

75% 30% 1%

VF

4a. Insert the values in to the boxes to make this statement correct.

< <

0.5 45% $\frac{2}{5}$

VF

Reasoning and problem solving

1a. Deborah has put these fractions, decimals and percentages in order from smallest to largest.

$\frac{1}{2}$ $\frac{3}{10}$ 20% 0.45

Is she correct? Explain your answer.

R

2a. Complete the calculation using a decimal and a percentage.

$$\frac{2}{4} = 80\% - \boxed{} - \boxed{}$$

Find 3 possibilities.

PS

3a. Janine says,

If I buy 35% of the cards and Jack buys two fifths, I will have the most.

Is she correct? Explain your answer.

R
