L.O. I can create a dialogue set in the world of Goth Girl

Task

* Choose 2 characters from the story and something they may disagree about. *Maybe Ada and Maltravers could argue about the Indoor Hunt.*

* You could choose an argument trigger from the ones provided (this resource will be in the folder on the website) if you are stuck.

* Think about the scene and create some dialogue of their disagreement.

Top tip - You could act out the argument, playing each character.

Remember: Name calling and short interchanges like "Are too!" and "Am not!" are quite boring so try and avoid them.
