

Frog Life Cycle

Home Learning Challenge

Look at the pictures of the life cycle of a frog. Can you put them into the correct order? Talk about what happens in the life cycle. Try using these words: frogspawn, tadpole, froglet, frog.

'Frog' and 'dog' are rhyming words. What other words can you think of that rhyme with 'frog'? Listen carefully to the sounds at the end of the words.

Teach someone at home the rhyme 'Five Little Speckled Frogs'. Use your fingers to help you count how many frogs are left on the log each time.

There are 6 frogs on a lily pad. If 3 jump into the water, how many would be left on the lily pad? You could use your fingers or draw a picture to help you.

Try making a model about part of the life cycle of a frog! You could use playdough, paper, empty cardboard boxes or tubes, yoghurt pots or plastic bottles. You could make frogspawn, a tadpole, a froglet or frog.

Frogs are very good at jumping! Show someone at home how good you are at jumping – remember to bend your knees!
